SUMMARY

Data scientist with more than 1 year of experience in data analysis.
Focused on computer vision and statistical modeling. Built automated reporting pipelines using Python and SQL, improving workflow efficiency by 20% and strengthening data-driven insights at Allianz Trade.

Key projects:

- Implemented a minimal JAX-based character-level RNN on the DailyDialog dataset (NLP), demonstrating autoregressive text generation with clean, reproducible code.
- Achieved high accuracy in ASD classification using fMRI functional connectivity features with Nilearn and LinearSVC in a Kaggle competition.
- Performed Bayesian ordinal regression analysis (PO vs. PPO) on obesity categories, showing Bayesian PPO yields better calibration, interpretability, and model fit.

WORK EXPERIENCE

Data Analyst

Allianz Trade

May 2023 – Apr 2024

Rome, Italy

- Analyzed data using Python, Power BI, IBM Impromptu Queries, Microsoft Access, Excel and VBA.
- Created dashboards and reports to reduce manual effort and improve reporting efficiency.
- Developed reusable dashboards and reports, reducing workload by 20% per team member.
- Streamlined data gathering and reporting tasks; delivered training sessions on new reporting tools.
- Collaborated in an international environment to translate business needs into tailored dashboards supporting countries across the Middle East, Europe, and Africa.

Data Analyst

Rasoul

Apr 2015 – Apr 2018

Tehran, Iran

- Collected and analyzed trade and customer data from four electronic stores.
- Processed and analyzed data stored in ASAN accounting software using Excel.
- Delivered analytical consultations to support business improvements.

EDUCATION

MSc Data Science

Sapienza University

Sep 2020 – Jan 2026 Italy

BSc Statistics

IKIU University

Sep 2010 – Jun 2015 Iran

THESIS

Ego4D-LiteSTA: a lightweight three-track pipeline for egocentric interaction anticipation, predicting object, action, and time-to-contact with 42% latency reduction and 99.9% accuracy retention.

LANGUAGES

English: Professional working proficiency
Italian: Intermediate
Persian: Native

SKILLS

Business Intelligence & Automation: Power BI, IBM Cognos Impromptu, VBA, Automated Reporting

Productivity Tools: Microsoft Excel, Microsoft Access, Microsoft PowerPoint, Microsoft Word

Data & Databases: SQL, PostgreSQL, Neo4j, Web Scraping

Programming & Machine Learning: Python, PyTorch, TensorFlow, Keras, Scikit-learn, JAX, NumPy, Pandas, PySpark

Computer Vision & Deep Learning: Computer Vision, Image Classification, Semantic Segmentation, Object Detection, Egocentric Vision, Convolutional Neural Networks (CNNs), Transfer Learning

Statistical & Probabilistic Modeling: Bayesian Inference, Ordinal Regression, Probabilistic Modeling, Model Calibration

Cloud & Tools: AWS, Git, GitHub

Soft Skills: Analytical Thinking, Problem Solving, Collaboration, Adaptability, Attention to Detail

AWARDS

Winner – Image Classification with Real World Data Distributions 2022
Leonardo Labs (Training Camp), Sapienza/Leonardo Labs
